HERE IS *OUR* *HOPE*

HERE IS OUR
HOPE

Luke 2:10-11

But the angel said to them, "Do not be afraid. I bring you good news of great joy that will be for all the people. Today in the town of David a Savior has been born to you; he is Christ the Lord."

1. How the shepherds heard

Luke 2:13-14

At once the angel was joined by a huge angelic choir singing God's praises: Glory to God in the heavenly heights, Peace to all men and women on earth who please him. (MSG)

2. Who the **baby** is

3. Why the **baby** came

Luke 2:29-30

"Lord, now you are letting your servant depart in peace, according to your word; for my eyes have seen your salvation."

HERE IS OUR
HOPE

A night desert landscape with a starry sky and silhouettes of people on camels. The sky is a deep blue, filled with numerous stars. A bright light source, likely the moon, is visible at the top center, casting a soft glow. The desert floor is dark and sandy, with rolling dunes. In the distance, two silhouettes of people riding camels are visible against the horizon.

DAVE GUDGEL

LEAD PASTOR

A night desert landscape with a starry sky and silhouettes of people on camels. The sky is a deep blue with numerous white stars. The desert floor is dark and sandy, with some dunes visible. In the distance, two silhouettes of people on camels are visible against the horizon.

DAN STOCKUM

YOUNG ADULTS PASTOR

A night desert landscape with a starry sky and silhouettes of people on camels. The sky is a deep blue, filled with numerous small white stars. A bright light source, likely the moon, is visible at the top center, creating a soft glow. The desert floor is composed of rolling sand dunes in shades of brown and tan. In the distance, the silhouettes of two people riding camels are visible against the horizon.

MISSIE FENNELL

DIRECTOR OF WOMEN'S MINISTRIES

The background of the entire image is a vast desert landscape at night. The sky is a deep, dark blue, densely populated with numerous small, bright white stars. A very bright, intense light source, likely the sun or moon, is positioned at the top center of the frame, creating a powerful lens flare that radiates across the sky. The desert floor is composed of rolling sand dunes, their silhouettes rendered in dark, muted tones against the starry sky. In the lower-middle portion of the image, the dark silhouettes of two camels and their riders are visible as they traverse the dunes.

SCOTT RIKIMARU

HOST

A wide-angle photograph of a desert at night. The sky is a deep, dark blue, densely populated with stars of varying brightness. A bright, hazy light source, likely the moon or a bright star, is positioned at the top center, creating a soft glow and lens flare effects. In the foreground, the dark, undulating dunes of a desert are visible. On the horizon line, slightly left of center, the silhouettes of two people riding camels are visible against the starry sky.

TIM LOGAN

HOST

A night desert landscape with a starry sky and silhouettes of people on camels. The sky is a deep blue, filled with numerous small white stars. A bright light source, likely the moon, is visible at the top center, creating a soft glow. The desert floor is composed of rolling sand dunes, with the silhouettes of two people riding camels visible on the horizon line.

GABE PETHTEL

LACS - HEAD OF SCHOOLS

A wide-angle photograph of a desert at night. The sky is a deep, dark blue, densely populated with stars. A bright light source, likely the moon, is positioned at the top center, creating a soft, ethereal glow and lens flare effects across the upper portion of the frame. The foreground and middle ground consist of rolling sand dunes, their surfaces smooth and undulating. In the distance, on a ridge of a dune, the silhouettes of two people riding camels are visible against the horizon line. The overall mood is serene and majestic, capturing the vastness of the desert under a clear night sky.

CARRIE MILLER

HOST

A night desert landscape with a starry sky and silhouettes of people on camels. The sky is a deep blue, filled with numerous stars. A bright light source, likely the moon, is visible at the top center, creating a soft glow. The desert floor is composed of rolling sand dunes. In the distance, the silhouettes of two people riding camels are visible against the horizon.

STEVE DURAND

FAMILY PASTOR

A wide-angle photograph of a desert at night. The sky is a deep, dark blue, densely populated with stars. A bright light source, likely the moon, is positioned at the top center, creating a soft, radial glow. The foreground and middle ground consist of rolling sand dunes. In the distance, on a ridge, the silhouettes of two people riding camels are visible against the horizon. The overall mood is serene and expansive.

DAVE STENFORT

HOST
