**Questions for Reflection and Discussion**

Acts 2:42-47

1. Do you think a church should be more devoted to fellowship or study of God's Word? Why? To which do you believe Bridges is more devoted?
2. How much time does your Life Group spend learning about one another's lives and praying for one another? Studying God's Word? Something else? Are your current time allocations the best way to spend group time? Why or why not?
3. In what ways could fellowship become more rooted in our practice at Bridges?
4. What do you normally do when you see someone standing alone on the patio or in the lobby before or after service? How could you be more welcoming?
5. What are some ways to invite a new person to engage more with the Bridges community without being too forward?
6. How could people at Bridges be more involved with each other's lives outside of church?
7. How could we better practice the "communal" aspect of communion?
