Questions for Reflection and Discussion

1 Samuel 8:4-20

1. How do you see people express a desire for peace and security? What are the typical "kings" they look to to provide it for them?
2. In what ways do you look for a political answer for what is really a spiritual problem (true peace, true security)?
3. In what ways have you been let down by looking for peace and security in jobs, relationships, finances, politics?
4. Why would God allow the Israelites (or us) to have a "king" who would inevitably disappoint us?
5. How has Jesus provided true peace and security in your life?
6. If Jesus had provided true peace and true security, why do we still look for those in kings who will always fail us?
