### Questions for Reflection and Discussion

Mark 1:21-45

1. In what ways does our culture sometimes try to address all of our problems with a "one size fits all" solution? (technology, economics, health care, politics, law, etc.)
2. Is there a single solution that can repair all the brokenness in the world? Is there a single solution that can repair all the brokenness in your life? Why or why not?
3. In the passage (Mark 1:21-45) Jesus addresses a spiritual need, a physical need, and a social need in unique ways. When have you needed Jesus to redeem one of these areas in your life? What happened?
4. With which type of need in the world are you most inclined to help bring restoration? Do you believe your inclination toward that need is a God-given calling or a bias against helping with other needs? Both? Something else? Why?
5. In what ways does Jesus' various approaches to people in need convict you about how you approach people in need?
6. What does Jesus' multiple types of restoration tell us about the Kingdom of God and what we can hope for in the future?
