One way in which we grow: \_\_\_\_\_

The destination of our growth: \_\_\_\_\_

### Questions for Reflection and Discussion

Ephesians 4:11-16

1. Would you consider yourself more of an independent person or dependent person? If independent (like most of us), are we out of step with God's desires for us? Why or why not?
2. In what ways have you "needed" someone else in order to grow spiritually in the past? In other words, what would have been totally impossible unless someone else was involved in your life?
3. What opportunities for spiritual growth do you think you might have missed over the years by trying to be spiritually independent?
4. What is one specific way that you could request for someone else to help you grow spiritually this week? What will be difficult about doing this?
5. Out of the numerous areas of potential growth mentioned in the video (evangelism, neighborly, noticing divine interruptions, encouraging more than correcting, deferring to one another with styles of worship, regularly volunteering, and welcoming or meeting people we don't already know), what stands out as areas in which God desires for you to grow? What is a possible next step?
